Add semester

Add course(s)

Add Assignment

Add assignment type(s)

Add assignment(s)

Request sort

Export sorted list

Export sorted list

Mark assignments as complete

Exit program

◉ (end)

System

Sort by priority/date

task/assignment marked as complete

Include in sorted list ◄Yes─◇─No► Do not include task/assignment

Export of list requested

Return sorted list ◄Yes─◇──No──►

File Writer

Export file of sorted list

The above diagram represents a user's basic interaction with the task management system. It highlights the parallels between student view and the standard task to-do list based view. While student view has additional functionalities these functionalities are not strictly dependent on each others completion.
